Thanks for the update Keith. We can raise with John Dombrowski (temporarily serving as acting OD) on Wednesday at our scheduled weekly.

Rob

Rob,

Based on a phone call I just received, I would recommend that David share this news "Uptier request" with OECA AA, in light of the fact that OP Career Staff will be sharing this information with the Brittany Bolen, OP AA tomorrow. OP staff supports the Uptier Request and they feel that having OECA AA support would help OECA uptier request. I told OP that Susan was out of town and most likely would not get this information from her before their update to OP AA.

Thank you –

Keith

Keith,

Sorry not to get back to you earlier. I am actually not working today but have been checking e-mails. I will raise with Martha Monday morning. Sara has already prepared a draft justification that can be shared with her. We will see what Martha says but I assume she will want to bring this to David. Maybe we can do so before the Weekly.

**Subject:** RE: Tiering for OIAI

Rob, is there a way to do this more expeditiously instead of waiting for MAMPD weekly meetings with David?

I asked the WG chair why it was Tier 3 during a separate discussion sometime last week and they said sort of the same thing you provided, that it was based on the original action's Tier. I told them my management was wondering why it was Tier 3, but I didn't say we were considering asking for an uptier. I certainly didn't say our concerns were "on hold" as a result of the discussion. However, my management hasn't made a decision yet on if they want to ask for an uptier, they want to know what the process for such a request would entail – who needs to sign what and what kinds of justification do we need for such a request.

Sara, is this accurate? I reached out to OAR Regulatory Steering Committee reps and this was their response. I am not sure why they would have WG Chair reach out to you instead of responding to me, but, this is the world we are living in.

Thanks –

Keith

Keith and Wanda,

I have been told that the WG Chair called and talked to the WG member about this action and our 'rationale'. My understanding is that OECA's 'concerns' are on hold for the moment and that we will revisit tiering in the next month after further management discussions. I'm not privy to the conversations, but after you confer with your WG member, if my characterization is not correct, I will make some more noise about it and see if I can get you an answer.

Alan

**Subject:** Tiering for OIAI

Hello, OAR RSC Reps: Please see below – Why is OAR using a Tiering approval from 2004 for this new policy direction and decision? Also, what was the documented justification to tier this rulemaking as a Tier 3 rule? OECA has concerns.

Thank you and happy to chat about this –

Keith

#### **Tiering**

**Tier Status:** Approved – By Whom? And  
when?

**Tier Approval Date:** 10/1/2004

**Tier Level:** 3

#### **Regulatory Reporting**

**Reg Agenda?:** Yes
